The New Homemakers of America First District Meeting was held Tuesday March 5, in Halifax, Virginia. The name of District I organization is Grace E. Harris District Organization.

The Seventh Grade, under the supervision of Mrs. Frankie M. Hale, is enjoying the study of Virginia Government. They are finding the names and duties of the local county officials.
The Tenth Grade Biology Class is conducting an interesting discussion on the Skeleton System. The class has done some research on the 206 bones which make up the body. At the present time, they're dealing with the bones of the face, after having completed the bones of the cranium.
In the study of the Skeletal System the tenth graders are also learning how each bone is classified, for example: short bones would include the carpals and tarsals; flat, bones, the parrietal and sternum; and irregular bones, the vertebrae and the ethmoid.
The sophomores have enjoyed their discussion in Biology on various topics.
Until next week our thought is: "They that wait upon the Lord shall renew their strength; they shall mount up with wings as eagles."

Urged To Plant Own Leaf Seed

It is very important that flue-cured tobacco farmers produce all of their own plants this year, C. D. Lewis, chairman of the Appomattox County Agricultural Stabilization and Conservation Committee advises. "Don't buy or borrow from your neighbor." He said that the "discount program" which applies to three varieties of Flue-cured tobacco, Coker 139, Coker 140, and Dixie Bright 244, makes it imperative that the farmer plant his own seed in order that he will have personal knowledge of the varieties planted. According to Mr. Lewis each farm operator will be required to certify to the County Committee and establish to the satisfaction of the Committee that none of these "discounted" varieties are being grown on the farm in 1957 if the farm is to be eligible for full support prices.

"Nine times out of ten if a farmer buys his plants he will be unable to certify from his own knowledge that none of the restricted varieties are being grown," Lewis said. At the time the tobacco acreage is measured someone will examine the tobacco growing in all fields and he will also obtain the farmer's certification at that time. In cases where the farmer is unable to make a certification or the tobacco variety cannot be readily identified, or there is reason to believe that one of the restricted varieties has been plantd, a chemical anaysis may be necessary to determine the variety. According to Mr. Lewis a chemical analysis will identify the variety grown.

Farmers who are unable to satisfy the County ASC Committee that none of the restricted varieties are being grown will receive a special marketing card which will limit price support to one-half of the regular amount.

This discount program is intended to discourage production of varieties viewed as undesirable under present demand conditions and to encounage an increase in the proportion of the crop having characteristics currently in demand.

Richard D. Robinson announced yesterday afternoon that he would be a candidate for Mayor of Appomattox in the June 11 town election. Mr. Robinson is now serving as Mayor, filling out the term in which Dr. C. F. James was elected two years ago. The Mayor advised that he was filing yesterday afternoon.

Some weeks ago, Frank M. McCann, local attorney, filed for the office of Mayor.

Since last week's issue, two more candidates have announced for the Town Council. They are: E. LeRoy Smith, retired Postmaster, and C. C. Poe, former councilman, and local hardware merchant.

This brings to ten the number in the race for the six places on the Council. All incumbent members have filed, except W. S. Gills, who has stated that he probably would not seek another term. The five incumbents who have filed are: J. C. Caldwell, J. T. Irby, Mrs. Calvin Robinson, T. Hunter Dickerson and Grover E. Smith. The five candidates not now on the council are: J. T. Almond, C. C. Poe, E. LeRoy Smith, S. J. Evans, and C. T. Moses, Jr.

With the deadline for filing several weeks off, there is a chance that additional names may be entered in the election contest.

Ruritan Club Has Contest At Pamplin

"What the Ruritan Club Could Do for this Community" is the topic for an essay contest being sponsored by the Pamplin Ruritan Club. Purposes of the contest are to get young people in the community to thinking along the lines of community needs and community development; and to get their thinking as to what an organization like the Ruritan Club might do to improve the local community.

This contest will be open to two groups of young people: one group being the high school students living in the Pamplin community, with the second group being the sixth and seventh grade students of the Pamplin school. The contest is now open and will close on Friday, April 5, 1957. Essays will be written on paper which does not contain the student's name. Another sheet of paper containing the student's name and address should be attached to the essay when it is turned in. Essays may be turned in or mailed to Mr. Earl Smith, principal of Pamplin School before midnight of April 5.

Three prizes will be awarded for each group of contestants. First prize will be $5.00; second prize, $3.00; and third prize, $1.00. Topic for the essay must be: "What the Ruritan Club Could Do for This Community," and must not contain more than 300 words. The contest will be judged by a committee of three to be chosen by the president of the Ruritan Club. Judges' decision will be final. Judges names will not be disclosed.

Asks Mailing Early in Day

Postmaster Richard Wingfield said today that mailers of Appomattox can often speed delivery of their mail as much as a full day by depositing it earlier in the day.
Explaining that many local mailers, particularly businessmen, needlessly hold their daily mail until the end of the day and then deposit it in the post office, Postmaster Wingfield said these advantages would be realized, if these patrons would mail earlier and more often in the day.
1. The mail that is deposited earlier will frequently make same day transportation connections, whereas, if it is deposited late in the day, it may sometimes have to wait until the next day to go out.
2. The chances of human error in handling the mail earlier in the day when the post office is not deluged with work are reduced.
3. Deposit of mail earlier in the day will benefit the local post office and postal employees, enabling them to spread their work out over a longer period of time and helping to reduce jam-ups and emergencies that may delay local deliveries and outgoing dispatches of mail in some instances.

Premier Bulganin told a Soviet-Bulgarian friendship meeting that the United States had insane plans for world domination that could plunge the peoples of the Middle East into atomic war.

Under a plan being set up by local school authorities and the Appomattox County Jamestown Festival Year Committee, an invitation is being prepared for mailing to a large number of school grades in this area, urging them to come to Appomattox on Tuesday April 9, for a tour of the National Historical Park at Old Appomattox Court House.
Supt. J. A. Burke, Dr. Aubrey M. Keesee, Miss Flora Belle Williams, and other local school leaders are cooperating with Calvin Robinson, chairman of the County Festival Committee, in this promotion.
According to Dr. Keesee, Virginia history is being taught this year in the 7th and 11th grades. Therefore these grades are being invited to tour the Appomattox area on April 9, 92nd anniversary of the reunion of th nation resulting from the ending of the War Between the States at Old Appomattox Court House.
It is understood the teachers of the above two grades in schools in an area easily within a day's round trip by school bus to Appomattox, will be mailed letters this week-end inviting them to make the trip on April 9 "for an on-the-spot lesson in history."
The local sponsors will then see what response is received, and will shape local plans accordingly.
Local 7th and 11th grade pupils would be briefed to assist as guides for visiting students. The local 7th grade might prepare a brief pageant for presentation. Arrangements would be made for "economy" lunch for visitors, and other courtesies.
In recent years, there has been a vastly enlarged program of taking student groups for on-the-spot tours of shrines of great historical interest. Each year, hundreds of thousands of students visit Washington, D. C., and very large numbers make tours to Williamsburg, Jamestown, Yorktown, Wakefield, Mount Vernon, etc. Located centrally in Virginia, Appomattox is in an ideal spot to make such tours a big event here. In years past there has been no formal effort to promote such tours, but nevertheless is a familiar sight for school buses to be found at the McLean House and in the local National Park area. The promotion this year could develop into an annual event, and therefore, response to the invitations will be eagerly awaited.
